FOR IMMEDIATE RELEASE

## Virtual Reality Platform Set to Change the Rules of Tabletop Roleplay Gaming Forever

*Canadian software studio announces a virtual reality platform for tabletop roleplaying games*

**Vancouver, BC** - Strawberry Fields Interactive has announced Aeksia, a VR platform for tabletop RPGs that offers a new way for players to experience their adventures like never before.

### **Features and benefits of Aeksia include:**

- A built-in social hub for players to connect with friends, meet new party members, and discover new games.
- An easy-to-use gesture system to access game tools as the adventure progresses.
- Manage sounds, models, and adventures through an intuitive content system.
- Experience the excitement from a whole new level by navigating the game's map in first-person and third-person points of view.
- Cross-platform support for both virtual reality headsets and desktop computers with integrated streaming capabilities.
- Integration of augmented reality to watch games as if they were in the same room.
- A free-to-play platform with cosmetics and adventure packs available for purchase to fully customize the in-game experience.

Aeksia will debut on Kickstarter later in 2021. For more information on Aeksia, visit [www.aeksia.com](http://www.aeksia.com)

### **About Strawberry Fields Interactive:**

Strawberry Fields Interactive is a Vancouver based software studio with 12 team members worldwide. The studio's focus is to bring immersive experiences to the players through virtual reality.
